

## COMPANY PROFILE

**Be Power** is a high tech company that was created to play a central role in the radical transformation that has begun in the energy sector. Through its innovative management of digital flows, it unites new businesses in the energy market with the electric mobility sector. Through its subsidiaries, Be Charge and 4Energia, Be Power provides services for recharging electric vehicles, through a proprietary infrastructure that extends all over Italy, and offers electricity network flexibility services by aggregating distributed energy resources (energy producers and consumers).

The Group is working in new market segments and focusing attention on new categories of customer such as users of electric vehicles and potential flexibility providers, offering new solutions, with particular attention to Demand/Response services.

### **4energia, our energy trading company**

4Energia is an innovative player in the energy sector which, as an aggregator, offers independent producers the chance to better exploit the energy they produce by benefitting from market opportunities. The solutions that 4energia offers its partners are renowned for their flexibility and for being adaptable to differing needs. In the energy transition sector, 4energia aims to grow and integrate diverse areas such as electricity generation, energy storage, demand response and electric mobility, transforming the classic activities of Portfolio Management and Energy Trading carried out by traditional utility companies, and structuring them in line with the principles of digital automation.

### **Be Charge, an integrated operator for electric mobility**

Be Charge is a member of the Be Power S.p.A. Group, dedicated to rolling out electric vehicle charging networks. Be Charge is developing one of Italy's biggest and most extensive public charging infrastructure networks for electric vehicles in order to play a decisive role in creating a new model of sustainability. Thanks to the technologically advanced platform it developed, Be Charge offers efficient charging services to all owners of electric vehicles, and enables them to recharge throughout Italy. As part of the sector supply chain, Be Charge plays a dual role as Charge Point Operator (CPO) and Electric Mobility Service Provider (EMSP).

All Be Charge charging stations are smart and user friendly, monitored 24 hours a day by a help desk and can be accessed via the Be Charge mobile app. Be Charge's charging stations are Quick (up to 22 kW) via alternating current, Fast (up to 150 kW) or HyperCharge (greater than 150 kW) via direct current. Be Charge's business plan is to install around 30,000 charging points in the next few years, which will provide 100% green energy from renewable sources.
